Global Textile Solutions for
Contract Hospitality

QUALITY. INNOVATION. EXCELLENCE.

Since 2002, we have built our expertise in textiles through quality craftsmanship and continuous innovation.

In 2018, we established our company with a clear mission: to deliver premium table linens for the hospitality industry.

Today, we proudly serve hotels, restaurants, and hospitality professionals worldwide with products that combine elegance, durability, and performance.

Our latest innovation—table linens woven with our advanced flame-resistant yarn—takes safety and quality to the next level.

Every fabric we create reflects our commitment to excellence, reliability, and long-term partnerships.

WHY CHOOSE US

QUALITY. INNOVATION. EXCELLENCE.

OVER 20 YEARS OF EXPERTISE

Since 2002, we've been dedicated to producing textiles that meet the highest hospitality standards.

PREMIUM HOSPITALITY FOCUS

Designed exclusively for hotels, restaurants, cafés, catering and event venues.

ADVANCED FLAME-RESISTANT TECHNOLOGY

Engineered with our innovative flame-resistant yarn for enhanced safety and lasting performance.

EXCEPTIONAL FABRIC QUALITY

Rich textures, elegant designs and superior durability for everyday professional use.

RELIABLE MANUFACTURING

Consistent quality, strict production control and dependable lead times.

TAILORED SOLUTIONS

Custom sizes, colors and designs to match your brand and project requirements.

GLOBAL BUSINESS PARTNER

Serving international customers with professional communication and export experience.

COMMITTED TO LONG-TERM PARTNERSHIPS

We believe lasting relationships are built on trust, quality and reliable service.

FLAME-RESISTANT TECHNOLOGY

SAFETY WOVEN INTO EVERY FIBER

Our innovative flame-resistant yarn is engineered directly into the fabric, providing lasting protection without compromising the elegance, softness or performance of our premium table linens.

ENHANCED FIRE SAFETY

Helps reduce flame spread for a safer dining environment.

PERMANENT FLAME RESISTANCE

Protection is built into the yarn—not applied as a surface coating.

WASH AFTER WASH PERFORMANCE

Maintains its flame-resistant properties through repeated laundering.

ELEGANT APPEARANCE

Luxury texture and refined designs with no compromise in style.

LONG-LASTING DURABILITY

Designed for the demands of busy hotels, restaurants and event venues.

RESPONSIBLE INNOVATION

Engineered for performance while supporting sustainable, long-life textile solutions.

Designed for Hospitality.
Engineered for Safety.

CERTIFIED QUALITY & SAFETY STANDARDS

"Our textiles are not just elegant; they are engineered for safety."

- We are proud to confirm that our fabrics meet the most stringent international fire safety regulations for contract and hospitality environments:

- United Kingdom (BS 5867-2:2008 Type B): Officially tested and PASSED for contract curtain and drapery standards.

- European Union (EN 13501-1): Complies with European fire classification of construction products and building elements.

- International Standards (ISO 15025:2017): Tested for surface ignition with zero flaming debris and no flame spread.

Test Parameter	Standard	Result
Flammability	BS 5867-2 Type B	PASS
Surface Ignition	EN ISO 15025	No flaming debris
Flame Spread	15s Application	No edge reach
Certification Body	BUTEKOM / TÜRKAK	Accredited Laboratory

Accredited Testing:

All tests are conducted by BUTEKOM (Bursa Technology Coordination and R&D Centre), an ISO/IEC 17025:2017 accredited laboratory (Accreditation No: AB-1280-T).

Our test reports are internationally recognized through the ILAC-MRA and EA multilateral agreements.
